ISSUES NEW COIN IN HUNGARY

The Ministry of Finance announces the issuance of new aluminum coins of 20 filler denomination. The new coin weighs 1.25 grams, has a diameter of 21 millimeters, and has a smooth edge.

The obverse of the coin bears the representation of three ears of wheat tied together by a ribbon, the year of coinage, and the circular inscription, "MAGYAR NEPKOZTARSASAG" (Hungarian People's Republic).

The reverse bears the figure "20" on the upper part of the coin over three horizontal lines interrupted by three dots in the middle. Under the lines is the word "FILLER." On the lower part of the coin, in the middle, are the initials of the mint, "B. P." (Budapesti Penzverde).

The 20-filler coins made of aluminum bronze remain in circulation.
